## RAINFOREST REMEDIES

### CONCENTRATED HERBAL DROPS Herbal Dietary Supplements

All our tinctures are made with pure organic cane alcohol combined with filtered water to a concentration of between 45% and 55% alcohol.

We provide these products with no intent to diagnose, treat, cure or prevent any disease.

Our products support the body's natural processes through normal healthy course of life. We are all born at our own risk. If you have a medical condition, please seek qualified medical advice.

We recommend you take the drops in a small amount of water for better absorption.

# RAINFOREST REMEDIES

## CONCENTRATED HERBAL DROPS or DRIED HERB FORMULAS/TEAS

### Herbal Dietary Supplements

All the plants used in our extracts are ethically wild crafted from tropical rainforest areas at risk for development or grown on our organic farm, Arco Iris in Valley of Peace, Cayo District, Belize, Central America. Your purchase of a rainforest product helps promote that the forest is worth more standing than destroyed.

The medicinal plant extracts contain bio-active compounds which assist normal metabolic functions of the body and are not intended as a substitute for physician care. Traditional healers of Belize have used these remedies for centuries to promote the health of the human body.
